The 16 luxury villas will be delivered as part of the development, designed to offer residents optimum privacy and security. Included in each home is a private swimming pool, spa, cinema room, entertainment room and wine cellar. Additional design features such as Technal aluminium double-glazing carpentry, Poliform Italian kitchens, real wooden flooring, infinity pools and Novara Design exterior kitchens will be conducive to a design that prioritises quality, precision and the highest standard of living; redefining the concept of luxury for its residents.
