FULL DESCRIPTION

This brand new development offers 233 units including 1-, 2-, and 3-bedroom choices with a range of different floor plans available.

Situated between Mijas and Benalmadena, these properties are a short distance from the beach and just 2 minutes from the Higueron Resort, which offers the Higueron Sports Club and Spa, a shopping center, dining options, and a train station.

The property options consist of the roomy Deluxe apartments with 2 or 3 bedrooms, and the Garden Villa that features a large garden space along with a private pool.

The Sky Villa and the large Sky Solarium penthouse both feature a private pool, along with some of the most stunning coastal views.

These houses provide the same level of luxury as a 5-star hotel, featuring top-notch finishing and construction. You will also enjoy all the amenities provided by the Higueron Hotel, including the concierge service, which helps with tasks like restaurant reservations and arranging private transportation to make your stay more convenient.
