

Estepona invests in upgrading the town

25/11/2022

New Developments, Spanish News

Estepona, the Garden City of the Costa del Sol, is considered one of the prettiest places in Malaga and is renowned for the murals, sculptures and floral displays that adorn many of its streets.

2022 has been a big year in terms of changes, and work continues from one end of the municipality to the other to improve and upgrade the appearance of the town, its parking facilities and sports installations.

The first stage of the pedestrianised promenade in the centre of the town was completed at the end of August, and work continues on the new lighthouse, a 15-story building, close to the port, that will offer 360° views of the city, house a music conservatory, a unique vertical library and be surrounded by shops and restaurants.

The new futuristic Town Hall and Underground Car Park is almost completed, and on the New Golden Mile, Pacha Group is busy building 'Laguna Village 2.0' which is set to become one of the largest tourist complexes in southern Spain.

Construction is also underway at [AYANA](#), a boutique residential development of spacious 2, 3 and 4 bedroom residences and penthouses that is within walking distance of Laguna Village, Kempinski Hotel and the new coastal path that will eventually stretch 180km from Manilva to Nerja.

To discover more about this exclusive development, visit our our sales office in the Kempinski Hotel or contact our on-site sales manager, Kathryn May, who can provide client and agent presentations, sales resources, and general

information. Or feel free to just drop by to say hi and to grab a quick coffee!
