## FULL DESCRIPTION

A multi-family building composed of 76 homes with spacious terraces, ranging from 1 to 3 bedrooms, and furnished kitchens. The ground-floor homes feature private garden areas, while the penthouse units offer the possibility of installing a pool. The design is elegant, with attention to detail to provide the highest quality in materials and finishes.

In terms of amenities, the homes include double glazing, heating and cooling air conditioning, and an athermal system to achieve the optimal temperature throughout the year and greater energy savings. It is a flexible project, allowing the owner to choose the kitchen furniture, interior finishes, and bathroom elements such as flooring, tiling, and the shower or bathtub, among others.
